TRANSMISION

TELEVISION KIT

offers 4 important advantages

1. Supplies a *high quality* television reception at considerably *lower cost* than in a completed set.
2. A boon to those who, deriving pleasure from creative activity, still want to keep costs down.
3. A practical aid to those who want to acquire basic training in television.
4. Opens the new, lucrative and intriguing field of television to interested laymen, as well as technical men.

SET PERFORMANCE

- Large enough picture to comfortably accommodate ten or more people.
- Picture brightness suitable for viewing even in a lighted room.
- Clarity and detail *comparable to or better than a moving picture.*
- Will be *pre-tuned* for any three stations desired by customer.
- Excellent sound performance—Large 6" speaker with heavy weight Alnico Permanent magnet.

All necessary components are included: nothing is required except a screw driver, cutting pliers and a soldering iron. Only the highest quality standard parts are used—the list price value of these parts alone is more than \$300.00.

No instruments are required. All difficult assemblies are pre-wired and tuned.

TECHNICAL DATA

- 3.5 megacycle band width in picture circuit.
- Eighteen tube set.
- Newly designed sweep and synchronizing circuit.
- 3,000 volt second anode voltage.
- High signal sensitivity — 100 microvolts for picture circuit.
- Seven-inch Lectrovision Picture Tube.

FACTORY GUARANTEE

Set is guaranteed to operate satisfactorily if directions are followed exactly. All servicing of component parts and assembled sets will be performed by the factory at factory cost. Sets should be returned to the factory prepaid and will be returned, service charges C.O.D. including cost of shipping.
